The following is an examiner's statement of reasons for allowance: The prior art does not teach to arrange the workpieces on a holder in an ion implanter in such a way as to maximize the ion beam utilization efficiency. Tokiguchi et al. and Robinson et al. teach the opposite of the claimed invention by maximizing the ion beam utilization efficiency by adjusting the beam scan area to match the arrangement of workpieces rather than match the arrangement of workpieces to a predetermined beam scan area as is claimed in the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
